Architect's rendering of the new Hall of Sciences on SCC's West Burlington campus

The proposed Hall of Sciences will be located on the West Burlington campus next to the new Health Professions Center. This two-story building will house new state-of-the-art science labs and smart classrooms. The two buildings will be connected by a skywalk. Like the Health Professions Center, the Hall of Sciences will provide science faculty and staff a central location where they can share resources and collaborate more easily. Science labs and equipment on the Keokuk campus will also be updated.

### Hall of Sciences Overview

Project cost: \$13.2 million; building & equipment

Total square feet: 30,000

#### Features:

West Burlington: a two-story facility with SCALE-UP classroom, biology, chemistry and science labs, student study space, faculty offices

Keokuk: fully-renovated space with new biology and science labs, modernized technology and instructional assets

## BUILDING the DREAM

Building the Dream is SCC's new comprehensive infrastructure expansion initiative consisting of four separate projects.

### Industrial Technologies Training Center

A state-of-the-art mechanical and electrical technology lab equipped with more than \$1 million in training equipment on the Keokuk campus.

### Health Professions Center

A modern teaching facility serving as a virtual hospital for all of SCC's health professions programs on the West Burlington campus.

### Hall of Science

A new facility with labs and classrooms for SCC's physical and life science programs as well as faculty and student space on the West Burlington campus.

### Blackhawk Student Center & residence hall

An activity center, multi-purpose gymnasium, and residence hall on the West Burlington campus.

Architect's rendering of the Health and Sciences Complex on SCC's West Burlington campus

The Hall of Sciences is part of the new Health and Science Complex to be located on the south side of the West Burlington campus.

### Upping the stakes for your success

With science facilities of this caliber, you can study nearly any STEM-focused program or major. And our expanded offerings will let us develop transfer programs with four-year colleges for students like you in fields of study such as Chemistry, Engineering, Physics, Pre-Medicine, Pre-Pharmacy, and Pre-Veterinary Science.

### SCALE-UP your learning

It's not all textbooks and whiteboards anymore. Learn in the next generation of classrooms in our SCALE-UP room. Work in teams on projects using a complete array of multimedia tools right at your fingertips.

### Start smart

Regardless of their college goals, students pick SCC because they'll get a great education that's close to home and that won't break the bank. Take advantage of our quality facilities and quality faculty and make the most of your college experience!
